Psychological History

Have you ever received treatment for a psychological condition? (If so, please describe the reason for treatment, when it occurred, and with whom you were in treatment)

Have you ever had difficulty with the following: (If so, please specify when)

Depressed mood, feelings of helplessness or worthlessness, and decreased motivation

Stress, anxiety, or tension that was beyond what would be expected for a given event

Distressing physical sensations such as shortness of breath, racing heart, dizziness, etc

Obsessive thoughts or images that you could not ignore

Repetitive behaviors or rituals that you felt compelled to complete

Distressing memories, flashbacks, or dreams in response to a traumatic event

Over the last two weeks, how often have you been bothered by any of the following problems?

	Not at all	Several days	More than ½ the days	Nearly everyday
Little interest or pleasure in doing things				
Feeling down, depressed, or hopeless				
Trouble falling or staying asleep, or sleeping too much				
Feeling tired or having little energy				
Poor appetite or overeating				
Feeling bad about yourself – or that you are a failure or have let yourself or your family down				
Trouble concentrating on things such as reading the newspaper or watching television				
Moving or speaking so slowly that other people				

could have noticed. Or the opposite – being so fidgety or restless that you have been moving around a lot more than usual				
Thoughts that you would be better off dead, or of hurting yourself				

If you checked off any problems, how difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?

Not at all difficult Somewhat difficult Very difficult Extremely difficult

Have you ever seriously thought about, planned, or attempted to hurt yourself or someone else?

Has there ever been a period of time when you were not your usual self and...	Yes	No	
You felt so good, or so hyper, that others thought you were not your normal self?			
Your feeling so good or hyper got you into trouble?			
You were so irritable that you shouted at people or started fights/arguments?			
You got much less sleep than usual, and found you didn't really need it?			
Thoughts raced through your head, or you couldn't slow your mind down?			
You were much more talkative or spoke much faster than usual?			
You were much more active or did many more things than usual?			
You had much more energy than usual?			
You were much more social or outgoing than usual, for example, you telephoned friends in the middle of the night?			
You were much more interested in sex than usual?			
You did things that were unusual for you or that others thought were risky, foolish, or excessive?			
Spending money got you or your family in trouble?			
You were so easily distracted by things around you that you had trouble concentrating or staying on track?			

If you checked yes to more than one of the above, have several of these ever happened during the same period of time? (If so, please mark which ones above) _____

How much of a problem did any of these cause you – like being unable to work; having family, money, or legal troubles; getting into arguments or fights?

No problem Minor problem Moderate problem Serious problem

Have any of your blood relatives been diagnosed with bipolar disorder? _____

Please answer the questions below using the option on the right that best describes how you have felt and conducted yourself over the past six months.

	Never	Rarely	Sometimes	Often	Very Often
How often do you have trouble wrapping up the final details of a project, once the challenging parts have been done?					
How often do you have difficulty getting things in order when you have to do a task that requires organization?					
How often do you have problems remembering appointments or obligations?					
When you have a task that requires a lot of thought, how often do you avoid or delay getting started?					
How often do you fidget or squirm with your hands or feet when you have to sit down for a long time?					
How often do you feel overly active and compelled to do things, like you were driven by a motor?					
How often do you make careless mistakes when you have to work on a boring or difficult project?					
How often do you have difficulty keeping your attention when you are doing boring or repetitive work?					
How often do you have difficulty concentrating on what people say to you, even when they are speaking to you directly?					
How often do you misplace or have difficulty finding things at home or at work?					
How often are you distracted by activity or noise around you?					
How often do you leave your seat in meetings or other situations in which you are expected to remain seated?					
How often do you feel restless or fidgety?					
How often do you have difficulty unwinding and relaxing when you have time to yourself?					
How often do you find yourself talking too much when you are in social situations?					
When you're in a conversation, how often do you find yourself finishing the sentences of the people you are talking to, before they can finish					

them themselves?					
How often do you have difficulty waiting your turn in situations when turn taking is required?					
How often do you interrupt others when they are busy?					

To complete the assessment it may be necessary to contact additional individuals (parents, teachers, spouse) who can provide another perspective about your historical or current functioning. Please provide full contact information for this person(s).

By signing this, I authorize Thomas DiPaola, PsyD to contact the individual(s) indicated above for the purposes of completing a psychological assessment.
